Certificate requirements

Bronze certificate

Completion requirements for pupils in grades 9-10 (within one or two years):

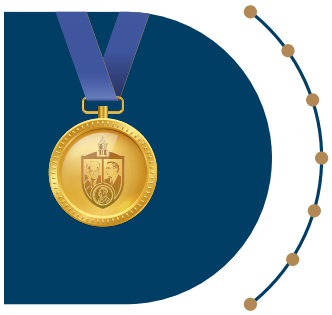

- Attend at least 6 secondary school laboratory practices and 1 lecture at the Regional Education Centre
- Completion of an online soft skills course
- Participate in 2 Plenary session lectures of the *Meetings of Nobel Laureates and Talented Students* in Szeged (one-day event)

Silver certificate

Completion requirements for pupils in grades 10-11 (within one year):

- Attend at least 4 secondary school laboratory practices and 1 lecture at the Regional Education Centre
- Attend at least 1 skill laboratory practice (hospital visit)
- Participate in at least 2 *Meetings of Nobel Laureates and Talented Students* in Szeged (three-day event) and attend at least 2 laboratory practices at the National Education Centres as part of the conferences

Gold certificate

Completion requirements for pupils in grades 11-12 (within one year):

- Attend at least 2 secondary school laboratory practices and 1 lecture at the National Education Centre
- Assist the Szent-Györgyi Senior teacher as a junior lecturer in at least 3 laboratory practices at the Regional Education Centre
- Participate in 2 laboratory sessions led by a university mentor (university visit)
- Attend at least 1 skill laboratory practice (hospital visit)
- Participate in at least 2 *Meetings of Nobel Laureates and Talented Students* in Szeged (three-day event) and attend at least 2 laboratory practices at the National Education Centres as part of the conferences

Certificate requirements are cumulative: a silver or gold certificate can only be obtained if the criteria for that level and all preceding levels have been fulfilled (e.g., to obtain a silver certificate, both the bronze and silver requirements must be completed).
