SZENT-GYÖRGYI MENTOR

Máté Varga

JUNIOR MENTOR

–

SPECIALIZATION

Genetics

SECONDARY SCHOOL

Budapest Montessori
Általános Iskola és
Gimnázium

NAME OF TEACHER

Zsolt Gorliczai

LANGUAGES

English/C1

IMPORTANCE, AIMS AND POSSIBLE OUTCOME OF RESEARCH

Expanding the molecular toolkit for research on the paradise fish will enable the development of larval and adult brain atlases that are essential for establishing the paradise fish as a successful model for behavioral genetics.

AMBITIONS AND CAREER GOALS

I aim to successfully complete my undergraduate studies and eventually obtain a PhD as I work toward a long-term research career. My goal is to steadily refine the necessary skills, build confidence in laboratory and data analysis work, and contribute to research with increasing independence.
