National Academy of Scientist Education, 2nd year

University of Szeged
Albert Szent-Györgyi Medical School, 2nd year

YEAR OF BIRTH

2004

FORMER SZENT-GYÖRGYI PUPIL

yes

SZENT-GYÖRGYI MENTOR

József Maléth

JUNIOR MENTOR

Viktória Szabó

SPECIALIZATION

gastroenterology

SECONDARY SCHOOL

Gödöllő Reformed
Secondary School

NAME OF TEACHER

Zsolt Horváth

LANGUAGES

English/intermediate

IMPORTANCE, AIMS AND POSSIBLE OUTCOME OF RESEARCH

Patients with recurrent acute pancreatitis often experience a progression of the disease and develop chronic pancreatitis. The severe symptoms of the disease significantly reduce the patient's quality of life and life expectancy and increase the risk of developing pancreatic cancer. Unfortunately, there is no specific therapy that can prevent the development of chronic inflammation or reduce its progression. The aim of my research is to identify potential therapeutic targets, which will allow the development of new targeted therapies.

AMBITIONS AND CAREER GOALS

My aim is to gain knowledge and experience that can be of great help in my future research to contribute to the development of medicine and to the more effective treatment of diseases.
