

ERNŐ DUDA

Ernő Duda is an award-winning Hungarian entrepreneur and recipient of the Gábor Dénes Prize, recognized as one of the most influential figures in Hungary's innovation and startup ecosystem. He is the founder of Solvo Biotechnology Ltd., president of the Hungarian Biotechnology Association and founder and CEO of Medipredict.

ACADEMIC AND PROFESSIONAL CAREER

He serves as an honorary associate professor at the University of Szeged, is the co-founder of the Szikra School and a member and former vice president of the Hungarian Skeptic Society.

With four TEDx talks, he holds the distinction of being the most frequently featured Hungarian TEDx speaker. Duda is widely regarded both nationally and internationally for his pioneering work and leadership in biotechnology, innovation and scientific entrepreneurship.

His latest lecture is available here:
